NOTICE TO RESIDENT

RE: Amick Avenue Curb Replacement
Activity ID 06-2020-010

The City of Des Moines is planning to replace the curbs along Amick Avenue from Beaver Avenue to 38th Street. The purpose of this letter is to notify residents within the project limits of the upcoming public improvement project. This work will be funded by the City's Capital Improvement Program Budget and you will NOT be assessed for this project.

Construction of the curbs along Amick Avenue is scheduled to take place during the 2020 construction season.

During construction, mail and solid waste collection services will be continued. Lane closures along the project will be required for the curb construction. The new curbs will be placed between existing driveways. Driveways will not be reconstructed and will remain open during construction.

The contractor will be replacing short sections of curb at a time to minimize the amount of construction disruption adjacent to the brick roadway. After the curbs are placed, they will be backfilled and seeded. As short sections are complete, the contractor will continue down the road until they complete all the curb replacement.

Another notice will be hand-delivered when the work is scheduled to begin. More information can be found by visiting the City of Des Moines Engineering Department's Projects and Capital Improvements Program Map at <https://maps.dsm.city/projects/>. If you have questions or need special accommodations, please contact Matt Becker at mdbecker@dmgov.org.

Thank you for your patience and cooperation during this public improvement project.
